

## ADVANCED CLASS

### ADVANCED ATTENTION/FOCUS

Area	Expectation
Focus plus behaviour	Dog offers attention and maintains it throughout 1 behaviour.
Work with distractions	Dog ignores available distraction (treat or toy) during 1 behaviour.
Turning on and off	Alternating interaction and disengagement between dog and handler (10 sec intervals).
Focus in new environments	Homework.

### SKILLS

Area	Expectation
Advanced halt	Dog sits at left side after halts, using verbal & non-verbal cues.
Stays	Adding distraction, distance, & duration to sit and down stays (change 1 at a time).
Finishes	Dog and handler learn both right and left finishes.
Changes of pace	Dog changes pace with handler during loose leash walking.
Beginning heeling	Dog and handler move together as a team, with dog in reasonable heel position.
Set up	Dog sits at left side, with attention on handler.
Position changes	Stand to down (fold back down), down to sit, kick back stand.

### OTHER

Area	Expectation
Twist/spin	Dog spins in a circle to both the right and left when cued.
Park	Dog sits quietly between handler's legs/feet.
Pedestal work 1	Dog stands with front feet on pedestal.
Pedestal work 2	Dog moves to left and right while on pedestal.
